Fall 2019: Optical Sciences and Engineering Advanced Lecture Series (PHYC500)
Instructor: T. Busani (busanit@unm.edu)

Office: CHTM

Class meets: Thursday 12:20pm - 1:15 pm;
Due to scheduling constraints, we will typically begin the lectures at 12:15a. About 50% of the talks will be in CHTM Rm 101. About 50% or so will be held at the Department of Physics and Astronomy (Room 190).
There will also be "special" lectures which will be held outside of the regularly scheduled class. Students are strongly encouraged to attend the "special" lectures, but attendance is not mandatory. You are allowed to attend up to 3 STEM related seminars in place of an OSE Seminar. You must fill out the “Substitute Seminar” form and have the host of that lecture sign the form. The schedule is available on the OSE seminar website. Doris will post all official information before each lecture via the OSE website.

Overview: This lecture course will feature a series of talks focused on the latest research in the field of Optical Science and Engineering. The speakers will include world wide experts in the field of optics from academia, industry and the national labs, as well as UNM faculty. Anticipated learning outcomes include:
1. Students will be exposed to a wide range of topics in photonics.
2. Students will have a formal venue to network with leading scientists in the field.
3. Students will learn (by example) how to deliver a coherent oral presentation.

Requisites: All new incoming OSE students are required to sign up for the course. All continuing OSE students from all tracks are highly encouraged to take the course. Students from other disciplines are welcomed!

Textbook: None.

Final exam: None.

Grading: Registered students will receive a grade of CR in this 1.0 credit hours class when they have successfully attended 80% or more of the scheduled lectures. Attendance will be monitored each class via a sign-in sheet. To ensure that you get the most out of the class, successful attendance is defined as arriving by 12:20 and staying for the full lecture. An attendance sheet will be also provided for the student to sign.
