

## **Fall 2023: Optical Sciences and Engineering Advanced Lecture Series (PHYC500)**

**Instructor:** Dr. Tito Busani

**Email:** busanit@unm.edu

**Office:** CHTM, Room 141

**Class Location(s):** PAÍS, Room 2540 and CHTM, Room 103

**Class Attendance:** The class meets on Thursday from 12:45 PM – 1:45 PM; due to scheduling constraints, we will typically begin the lectures at 12:50 PM. About 50% of the talks will be at PAÍS and about 50% will be held at CHTM. There will also be "special" lectures which will be held outside of the regularly scheduled class. Students are strongly encouraged to attend the "special" lectures, but attendance is not mandatory. The schedule is available on the [OSE seminar website](#). Doris will post all official information before each lecture via the OSE website.

**Overview:** This lecture course will feature a series of talks focused on the latest research in the field of Optical Science and Engineering. The speakers will include worldwide experts in the field of optics from academia, industry, and the national labs, as well as UNM faculty. Anticipated learning outcomes include:

1. Students will be exposed to a wide range of topics in photonics.
2. Students will have a formal venue to network with leading scientists in the field.
3. Students will learn (by example) how to deliver a coherent oral presentation.

**Requisites:** All new incoming OSE students are required to sign up for the course. All continuing OSE students from all tracks are highly encouraged to take the course. Students from other disciplines are welcomed!

**Textbook:** None.

**Final exam:** None.

**Grading:** Registered students will receive a grade of CR in this 1.0 credit hours class when they have successfully attended 80% or more of the scheduled lectures. Attendance will be monitored for each class via a sign-in sheet both in-class and by Zoom. To ensure that you get the most out of the class, successful attendance is defined as arriving by 12:50 PM and staying for the full lecture.
